PROFESSIONAL SUMMARY

Junior Front-End Developer focused on React.js and Next.js, with hands-on experience building responsive, interactive, and user-focused web interfaces. Skilled in REST API integration, reusable component development, responsive design, and deploying web applications using Vercel and Netlify.

TECHNICAL SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frontend: React.js, Next.js, React Router, Vite
- Styling: Tailwind CSS, Responsive Design, Mobile-First Development
- Animation: GSAP, ScrollTrigger, Framer Motion
- APIs: REST APIs, API Integration
- Development: Reusable Components, Component-Based Architecture, Client-Side Routing
- Tools: Git, GitHub, Vercel, Netlify

PROJECTS

Nahj — Islamic Web Platform

Technologies: Next.js | React.js | Tailwind CSS | REST APIs | GSAP | Live: nahj-islamic-website.vercel.app

- Developed a responsive Islamic web platform using Next.js and React.js, featuring Quran, Hadith, Azkar, Prayer Times, and Islamic Books.
- Integrated external REST APIs to retrieve and display Quran, Hadith, and prayer-time data.
- Designed reusable React components and responsive layouts for desktop and mobile devices.
- Implemented interactive UI elements and scroll-based animations using GSAP and ScrollTrigger.
- Focused on responsive user experience, component reusability, and clean interface implementation.

ForexTrade — Forex Trading Interface

Technologies: React.js | Tailwind CSS | GSAP | Framer Motion | Live: frox-trad-three.vercel.app

- Developed a modern responsive trading interface using React.js.
- Built reusable UI components and responsive layouts using Tailwind CSS.
- Implemented interactive animations and transitions using GSAP and Framer Motion.
- Optimized the interface for a polished, engaging, and responsive user experience.

Smart Store — E-Commerce Web Application

Technologies: React.js | Vite | Tailwind CSS | React Router | REST API | Live: smart-store-react-e-commerce.vercel.app

- Developed a responsive e-commerce web application using React.js and Vite.
- Integrated the DummyJSON REST API to fetch and display product data dynamically.
- Implemented client-side routing using React Router.
- Built interactive shopping features and user feedback using React Hot Toast.
- Created reusable components and responsive layouts to maintain a consistent user experience.

EDUCATION

General Secondary Education — Graduated 2015

SELF-DIRECTED LEARNING

Front-End Development

Continuous practical learning through online courses, technical documentation, and hands-on projects, with a focus on modern front-end development using JavaScript, React.js, and Next.js.

LANGUAGES

Arabic: Native | English: Very Good
